SECTION: - QUANT

Direction (1-3):- In each of the following questions contain two equations as I and II. You have to solve both equations and determine the relationship between them and choose the answer from the following options.

Q1.

I) $x^2 + 33x + 252 = 0$

II) $y^2 + 7y - 60 = 0$

A. $x > y$

B. $x \geq y$

C. $x = y$ or relationship can't be determined.

D. $x < y$

E. $x \leq y$

Q2.

I) $x = 3y - 24$

II) $15y + 2y^2 = 37y$

A. $x > y$

B. $x \geq y$

C. $x = y$ or relationship can't be determined.

D. $x < y$

E. $x \leq y$

Q3.

I) $x^2 + 17x + 72 = 0$

II) $y^2 + 20y + 99 = 0$

A. $x > y$

B. $x \geq y$

C. $x = y$ or relationship can't be determined.

D. $x < y$

E. $x \leq y$

Q4. Ratio of the time taken by the boat covers 120 km in still water to the time taken by the boat covers 216 km in along with stream is 2:3, the speed of the boat in against stream is what percent of the speed of the boat along with stream?

A. 44.44%

B. 55.55%

C. 66.66%

D. 33.33%

E. Cannot be determined

Direction (5-6) What value should come in the place of (?) in the following number series?

Q5. 15, 16, 20, 29, 45, ?

A. 94

B. 50

C. 65

D. 70

E. 80

Q6. 19, 34, 64, ?, 169, 244

A. 100

B. 103

C. 105

D. 107

E. 109

Q7. A started the business with an amount of Rs. 12000 and stay in the business for 5 months. B invested Rs. 15000 and be in the business for 8 months. After 4 months from

the start, C started the business with an amount of 200 more than A. If the annual profit is Rs. 138800, then what is the share of profit will B get?

A. Rs.60000

B. Rs.85000

C. Rs.75000

D. Rs.65000

E. None of these

Directions (8-12) :- Read the following information carefully and answer the questions.

The given table shows the total income of the five persons i.e. A, B, C, D and E in the year 2020 and also given the percentage of the saving of five different persons.

Note: The total income of a person= saving + expenditure

Persons	Income in Rs.	Savings %
A	20000	25%
B	15000	20%
C	10000	30%
D	25000	40%
E	12000	15%

Q8. If the saving of person F is 20% more than that of person C and the saving of person F is 25% of the total income and then find the expenditure of person F?

A. Rs.12000

B. Rs.10800

C. Rs.15000

D. Rs.14400

E. None of these

Q9. Find the difference between the expenditure of persons A and C?

A. Rs.8000

B. Rs.7000

C. Rs.5000

- D. Rs.9000
- E. None of these

Q10. Find the ratio of the saving of person B and the expenditure of person D?

- A. 8:5
- B. 7:4
- C. 3:2
- D. 1:5**
- E. None of these

Q11. If the income of person C in the year 2021 is 11% more than that of 2020 and the saving of person C in the year 2021 is 500 more than that of 2020 and then find the expenditure of person C in the year 2021?

- A. Rs.6300
- B. Rs.4500
- C. Rs.7600**
- D. Rs.5400
- E. None of these

Q12. The saving of person E is what percentage of the expenditure of person B?

- A. 24%
- B. 15%**
- C. 32%
- D. 10%
- E. None of these

Direction (13-16):- Read the following information carefully and answer the questions.

Ratio of the total production of apples in January and March is 4:3 and the total production of apples in January, February and March is 800. Difference between the total production of apples and oranges in February is 400 and the total production of

oranges in January and March is 3:2. The total production of apples is 200 less than the total production of oranges in all three months and the total production of oranges in February is equal to the total production of oranges in January and March.

Q13. Out of the total production of apples and oranges in March, 18% and 12% of the apples and oranges are unsold and then find the total production of apples and oranges are sold in March.

A. 198

B. 294

C. 356

D. 422

E. None of these

Q14. Find the difference between the total production of apples in February and March together and the total production of oranges in February?

A. 100

B. 150

C. 120

D. 180

E. None of these

Q15. Find the average production of apples and oranges in January and March?

A. 300

B. 500

C. 600

D. 400

E. None of these

Q16. If the total production of apples and oranges in April is 3 times and $\frac{3}{5}$ of the total production of apples and oranges in February and then find the total production of apples and oranges in April?

- A. 900
- B. 700
- C. 500
- D. 600**
- E. None of these

Q17. A, B and C together can complete the work in 15 days. If the efficiency of B is $\frac{4}{3}$ rd of the efficiency of A and the efficiency of C is four-fifth of the efficiency of A, then in how many days A alone complete the work?

- A. 11.75 days
- B. 28.5 days
- C. 38 days
- D. 47 days**
- E. 52.25 days

Q18. The simple interest on Rs. P at 15% p.a for 2 years is Rs.300 more than the simple interest on Rs.(P + 500) at 12% for 2 years. What is the interest, if (2P + 500) is lent for 2 years at 12% SI rate?

- A. Rs.1750
- B. Rs.2350
- C. Rs.3480**
- D. Rs.4810
- E. None of these

Q19. The number of male employees in the company is 50% more than the number of female employees in the company. If the number of female employees is increased by 40% and the number of male employees in the company is increased by 80%, then now the number of female employees in the company is what percent of the number of male employees in the company?

- A. 48.65%
- B. 51.85%**

C. 55.83%

D. 45.45%

E. 59.34%

Q20. Vessel A contains 60 liters mixture of milk and water in the ratio of 3:2 and vessel B contains x liters mixture of milk and water in the ratio 6:5. If vessel A and B mixture is mixed, then the ratio of the milk and water in the resultant solution is 15:11, then find the value of x?

A. 33 liters

B. 44 liters

C. 55 liters

D. 66 liters

E. None of these

SECTION: - REASONING

Direction (21-24) :- Study the following information carefully and answer the below questions

Eight persons- P, Q, R, S, T, U, V, and W are standing in the college queue to get the application form but not necessarily in the same order. The one who gets application at first is numbered as one and the one who gets immediately after him is numbered as two and so on. Only three persons are standing between U and T. T stands on an even number position immediately before R. P stands on an even number position between U and R. The numbers of persons standing before P is the same as after V. W stands before Q but after S where atleast one person stands between them.

Q21. Who among the following person stands at last?

A. W

B. The one who stands two persons after P

C. The one who stands immediately after T

D. Q

E. R

Q22. How many persons are standing before P?

- A. More than three
- B. No one
- C. One
- D. Two
- E. Three

Q23. Which of the following statement is/are true?

- I. S is the first person to stand in the queue
- II. Three persons are standing between W and R
- III. T stands immediately before Q

- A. Only I and III
- B. Only III
- C. Only I and II
- D. Only II
- E. None of these

Q24. What is the position of W from the last of the queue?

- A. Sixth
- B. Seventh
- C. Third
- D. Fifth
- E. Fourth

Direction (25-28):- Study the following information carefully and answer the below questions

A certain number of persons are seated in the linear row facing the north direction. N sits fourth to the left of Q. Only two persons are seated between Q and L. The number of persons seated between N and L is the same as between L and P. P sits fourth to the right of S. The number of persons seated between S and P is one more than between M

and N. M and P are not immediate neighbours. I sit immediately left of S. Not more than five persons are seated to the right of I. The number of persons seated right of I is one more than to the left of G. G sits second to the left of M. Only three persons are seated between G and T. T neither sits adjacent to Q nor N. More than two persons are seated between T and N.

Q25. How many persons are sitting in the row?

A. 25

B. 24

C. 23

D. 22

E. None of the above

Q26. Who among the following person sits to the left of N?

I. The one who sits immediate right of I

II. The one who sits second to the right of G

III. T

A. Only II and III

B. Only III

C. Only I and II

D. Only II

E. None of these

Q27. How many persons are sitting between M and S?

A. 11

B. 12

C. 13

D. 10

E. 09

Q28. What is the position of S from the right end of the row?

- A. Seventh
- B. Fifth**
- C. Sixth
- D. Eighth
- E. None of the above

Direction (29-32) Study the following information carefully and answer the below questions

Eight persons- P, Q, R, S, T, U, V, and W were born on different dates either 6 or 19 of different months- January, April, June, and July of the same year but not necessarily in the same order. S was born two months before P both were born on an even-numbered date. Only two persons were born between P and U. T was born three months before R. R was not born in April. The number of persons born before R is the same as after W. Q was born before V. Q was not younger than P.

Q29. How many persons were born between Q and V?

- A. Two
- B. Three
- C. Four**
- D. Five
- E. None

Q30. Who among the following person was born immediately before P?

- A. The one who was born immediately after S**
- B. The one who was born two persons before U
- C. V
- D. R
- E. W

Q31. Four of the five among the following are similar in such a way to form a group, which one of the following doesn't belong to the group?

- A. Q

B. W

C. S

D. The one who was born two persons after S

E. The one who was born immediately before U

Q32. On which of the following Date and months does W was born?

A. 19th June

B. 19th April

C. 6th April

D. 19th January

E. 6th July

Q33. In the given number "9657153428" the position of the first and second digits are interchanged, similarly, the position of the third and fourth digits are interchanged, and so on till the end. Then, which of the following digit will be second to the left of the digit which is a fifth from the left end?

A. 9

B. 7

C. 5

D. 6

E. 4

Direction (34-37) :- Study the following information carefully and answer the below questions.

Eight persons – P, Q, R, S, T, U, V and W are sitting around the circular table. Four of them are facing towards the table and four of them are facing outwards the table. Three persons sit between V and R. Both R and V are facing the opposite directions to each other. S sits second to the right of R. W faces the one who sits second to the right of V. U sits third to the left of W. Neither R nor S sits an immediate neighbour of Q. T faces the one who sits second to the left of Q and both are facing the same direction. P facing outwards and the immediate neighbours of P facing the opposite direction to P.

Q34. Who sits fourth to the right of P?

- A. U
- B. W
- C. The person facing W
- D. The one who sits opposite to P
- E. None of these

Q35. In which of the following statement the third person doesn't sit exactly in the middle of first and second person as per the final arrangement?

- I). UPQ
 - II). TUV
 - III). VRW
- A. Only II
 - B. Only I and III
 - C. Only III
 - D. All I, II and III
 - E. Other than the given option

Q36. How many persons sit between Q and the one who faces S when counted from the right of Q?

- A. Two
- B. Three
- C. Four
- D. Five
- E. Other than the given option

Q37. Who among the following one sits second to the left of the one who sits fifth to the left of U?

- A. the One who faces R

B. the One who faces P

C. the One who faces S

D. the One who faces W

E. Other than the given option

Direction (38-39) :- Each of the following questions consist of a statement followed by two arguments I and II. Select whether the argument(s) is/are followed or not.

Q38. Statement: The employees of this public organisation have decided to oppose government control and their push towards cooperative actions with other organisations.

Argument I: Government have no control over its organisations and their actions.

Argument II: An public organisation functions better without cooperative decision making.

A. If only argument II is strong

B. If only argument I is strong

C. If either argument I or II is strong

D. If neither argument I nor II is strong

E. If both argument I and II are strong

Q39. Statement: Should those with tattoos on visible body parts, irrespective of their cultural values, be barred from public appearance?

Argument I: Yes, Public is not comfortable with drawings on natural human skin.

Argument II: Yes, people with tattoos looks disfigured.

A. If only argument II is strong

B. If only argument I is strong

C. If either argument I or II is strong

D. If neither argument I nor II is strong

E. If both argument I and II are strong

Q40. If the consonants of the word "RESERVATION" are changed to the immediate previous letter and vowels are changed to the

immediate next letter as in the English alphabetical series then how many letters are repeated?

- A. More than three
- B. Three
- C. None
- D. Two
- E. One

Section: - English Language

Directions (41-50): Read the passage given below and answer the questions that follow.

A primitive seabird that prospered about 85 million years ago along the warm, shallow inland sea that once split North America boasted what scientists are calling a surprising blend of traits from its dinosaur ancestors and modern **avian** characteristics. Four new fossils of Ichthyornis, which had both a beak and teeth and lived a lifestyle like modern gulls, offer striking evidence of this Cretaceous Period bird's important position in avian evolutionary history, researchers said on May 2. While Ichthyornis fossils were first unearthed in the 1870s, the new ones from Kansas and Alabama chalk deposits, including a beautifully preserved skull, reveal far more about it than previously known.

Birds evolved from small, feathered dinosaurs. Unlike the earliest-known birds like Archaeopteryx, which lived 150 million years ago, Ichthyornis was a strong flier, its body streamlined, simplified and adapted for the flight like modern birds, Yale University paleontologist Bhart-Anjan Bhullar said. Its primitive characteristics were largely in its skull. "Despite the modernity of its body and wings, it retained almost a full complement of dinosaurian teeth, and it had a strong bite with large, dinosaurian jaw muscles. However, it perceived its world and thought like a bird, with a bird's enormous eyes and expanded modern-looking brain", Bhullar added.

While older primitive birds like Confuciusornis, from 125 million years ago, sported a beak, the small one on Ichthyornis was the first known to have modern attributes like a 'pincer tip' for grasping, pecking and fine manipulation. "Its sharp teeth probably would have assisted in holding onto slippery marine prey, while the incipient beak at the tips of its jaws probably would have allowed it to manipulate objects with fine dexterity such as modern birds can do, and **preen** its feathers", University of Bath paleontologist Daniel Field said.

Ichthyornis was the size of a tern, with a two-foot wingspan, and probably ate fish and shellfish. It shared the skies with flying reptiles called pterosaurs when dinosaurs dominated the land. Toothed birds vanished along with the dinosaurs and many other species after an asteroid impact 66 million years ago. Fossils like those of Ichthyornis and Cretaceous toothed diving bird Hesperornis were cited by 19th-century naturalist Charles

Darwin as strong support for his theory of evolution. "Ichthyornis shows the ways in which evolution is both complex and elegant, permissive of individual changes and massive integrated transformations," Bhullar said.

Que. 41 To which species does Pterosaurs belongs to?

- A. Seabird
- B. Flying reptiles
- C. Dinosaurs
- D. Diving bird
- E. Feathered dinosaur

Que. 42 Who among the following did not give the Theory of Evolution?

- i. Charles Darwin
- ii. Bhart-Anjan Bhullar
- iii. Daniel Field

- A. Only i
- B. All except i
- C. All except ii
- D. All except iii
- E. All i, ii and iii

Que. 43 The above passage is likely to be extracted from a _____?

- I. Scientific magazine
- II. Newspaper
- III. Journal

- A. Only i
- B. All except i
- C. All except ii
- D. All except iii
- E. All i, ii and iii

Que. 44 Toothed birds vanished along with the dinosaurs and many other species after an _____ ago.

- A. asteroid impact 66 million years
- B. asteroid impact 125 million years

- C. asteroid impact 125 billion years
- D. asteroid impact 85 million years
- E. asteroid impact 66 trillion years

Que. 45 When did the Ichthyornis fossils were first unearthed?

- A. 85 million years ago
- B. 125 million years ago
- C. on May 2
- D. in 1870s
- E. 66 million years ago

Que. 46 Which among the following species had its primitive characteristics largely in its skull?

- A. Archaeopteryx
- B. Hesperornis
- C. Confuciusornis
- D. Pterosaurs
- E. Ichthyornis

Que. 47 As used in the last paragraph, what do you understand by the word 'preen'?

- A. Clean
- B. Pity
- C. Pure
- D. Tear
- E. Fear

Que. 48 Ichthyornis have a wingspan of?

- A. 2 foot
- B. 2 inches
- C. 2 metres
- D. 2 centimetres
- E. 2 millimetres

Que. 49 The tone of the author in reference to the above passage is?

- A. Informative

- B. Doubtful
- C. Controversial
- D. Mocking
- E. Criticising

Que. 50 As used in the first paragraph, 'avian' is used in what reference?

- A. Relating to artists
- B. Relating to birds
- C. Relating to aliens
- D. Relating to human species
- E. Relating to insects

Que. 51 Directions: In the following question, one part of the sentence may have an error. Find out which part of the sentence has an error and click the button corresponding to it. If the sentence is free from error, click the "No error" option.

Climate Change in Glasgow, scheduled later this (A)/ year, is to come down with a domestic climate (B)/ plan that explains to the citizen how it will bring (C)/ green development in this decade, specifying a target by sector for each year. (D)/ No error / (E)

- 1. A
- 2. B
- 3. C
- 4. D
- 5. No error

Que. 52. Read the following sentence and determine whether there is any error in it. The error, if any, will be in one part of the sentence. If the sentence is error-free, then select 'No Error' as your

Bringing clean renewable energy to low-income countries(A)/ would enable more women and girls to gain access(B)/ to education, as without electricity they often(C)/ lack the means to study after nightfall. (D)

- 1. A
- 2. B
- 3. C
- 4. D
- 5. No error

Que. 53. Read the following sentence and determine whether there is any error in it. The error, if any, will be in one part of the sentence. If the sentence is error-free, then select 'No Error' as your

The discovery of two new species of dinosaurs, (A)/ namely *Ceratosuchops inferodios* and *Riparovenator milnerae*, which likely(B)/ roamed the south of England 125 million(C)/ years ago, have shed new light on the predators. (D)

1. A
2. B
3. C
4. D
5. No Error

Que. 54. Read the following sentence and determine whether there is an error in it. The error, if any, will be in one part of the sentence. If the sentence is error-free, then select 'No Error' as your

The diameter of a single, cylindrical DNA (A)/ component is always the same, (B)/ regardless to whether it forms part (C)/ of a fruit fly, or a beech tree. (D)

1. A
2. B
3. C
4. D
5. No error

Que. 55 Read the sentence below to find out if there is any error in it. The error, if any, will be in one part of the sentence. The letter of that part is the answer. If there is no error the answer is (5).(Ignore errors in punctuation if any).

Their most significant gains (A)/have been in the north half of the country, (B)/a traditional stronghold of the U.S.allied (C)/ warlords who helped defeat them in 2001(D)/ No Error (E)

1. A
2. B
3. C
4. D
5. E

Direction (Q.56-60): Read the given sentences and arrange them in a coherent and logical order. Answer the questions that follow.

- A. Over the past year, perceptions of relative U.S. economic power have declined in many of America's key trading partners and allies.
- B. Following the onset of the financial crisis nearly a decade ago, Europeans increasingly named China, rather than the U.S., as the world's leading economic power.
- C. This year, however, the pattern has reversed itself again, and in countries such as Germany, the United Kingdom, and Spain, China is once more seen as occupying the top spot.
- D. But in recent years, as the American economy slowly recovered, the pendulum began to swing back in the direction of the U.S.
- E. The trend can be seen in several European countries, where views about the economic balance of power have fluctuated in recent years.

Que. 56 Which of the following is the **FIRST** statement?

- 1. A
- 2. B
- 3. C
- 4. D
- 5. E

Que. 57 Which of the following is the **SECOND** statement?

- 1. A
- 2. B
- 3. C
- 4. D
- 5. E

Que. 58 Which of the following is the **THIRD** statement?

- 1. A
- 2. B
- 3. C
- 4. D
- 5. E

Que. 59 Which of the following is the Fourth statement?

1. A
2. B
3. C
4. D
5. E

Que. 60 Which of the following is the FIFTH statement?

1. A
2. B
3. C
4. D
5. E

SECTION: - GENERAL AWARENESS

Q61. ____ edition of winter Olympics in Beijing has taken place in 2022.

- A. 21st
- B. 23rd
- C. 24th
- D. 30th
- E. 32nd

Q62. According to the recently released Economic Survey 2020-21, which of the following sectors is the least impacted by COVID-19 pandemic?

- A. Manufacturing Sector
- B. Services Sector
- C. Agriculture Sector
- D. Industry Sector
- E. Pharmaceutical Sector

Q63. As per the recent announcement by the Union Minister of Commerce and Industry in January 2022, Government has targeted the 650 billion exports in current financial year, what will be the contribution of service sector to achieve the target?

- A. USD 100 billion
- B. USD 250 billion**
- C. USD 300 billion
- D. USD 350 billion
- E. USD 400 billion

Q64. According to recently released Union Budget 2022-23, Period of incorporation for eligible start-ups to avail tax benefit has been extended up to _____.

- A. 31.03.2022
- B. 31.03.2023**
- C. 31.03.2024
- D. 31.03.2025
- E. 31.03.2026

Q65. According to the recently released Union Budget 2022-23, what amount of funds have been exclusively allocated for the hospitality sector under ECLGS?

- A. Rs.25000 Crore
- B. Rs.30000 Crore
- C. Rs.50000 Crore**
- D. Rs.75000 Crore
- E. Rs 100000 Crore

Q66. CBDT has started the POEM initiative to determine the tax payable by a foreign company from year 2018. What does P in POEM stand for_____.

- A. Person
- B. Primary
- C. Presence

D. Place

E. Public

Q67. Senegal national football team has defeated which of the following under the Africa Cup of Nations (AFCON), in February 2022?

A. Tunisia

B. Ghana

C. Egypt

D. Zambia

E. Guinea

Q68. Who among the following has won the Padma Vibushan for Public Affairs?

A. Boris Johnson

B. Shinzo Abe

C. Barack Obama

D. Vladimir Putin

E. Aung San Su Kyi

Q69. According to the recently released Henley Passport Index, what is India's rank?

A. 56th

B. 62nd

C. 83rd

D. 96th

E. 102nd

Q70. Sukla Mistry has become the first woman director of which of the following, the nation's largest oil refining and fuel marketing company in February 2022?

A. Hindustan Petroleum

B. Reliance Petroleum

C. Oil and Natural Gas Corporation

D. Indian Oil Corporation

E. National Thermal Power Corporation Limited

Q71. Which of the following is the world's largest Oil refinery in terms of Market Capitalization in US Dollar?

A. Exxon Mobile, United States of America

B. British Petroleum, United Kingdoms

C. ARAMCO, Saudi Arabia

D. Petrobras, Brazil

E. Enbridge, Canada
