Solution With Answer Key:

(1-5) Common Explanation-

Step 1:

The one who hates pineapple is sitting to the immediate right of Charlie, who likes mango and peach.

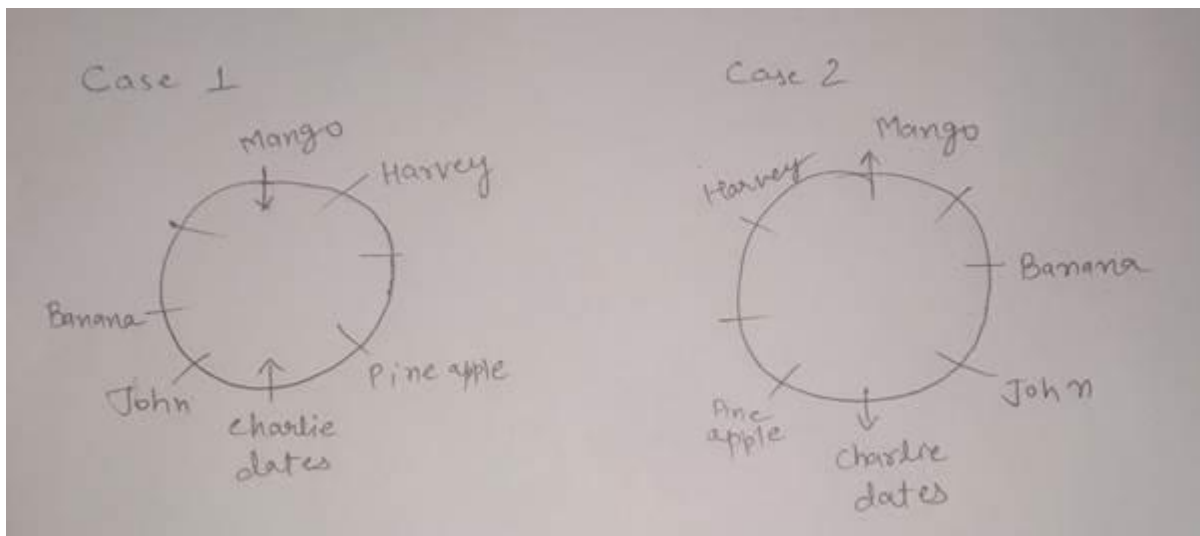

Harvey is sitting immediate left of the person who hates mango, who is sitting opposite to Charlie and both of them are facing the same direction

Step 2:

John is sitting to the immediate left of Charlie, who hates dates.

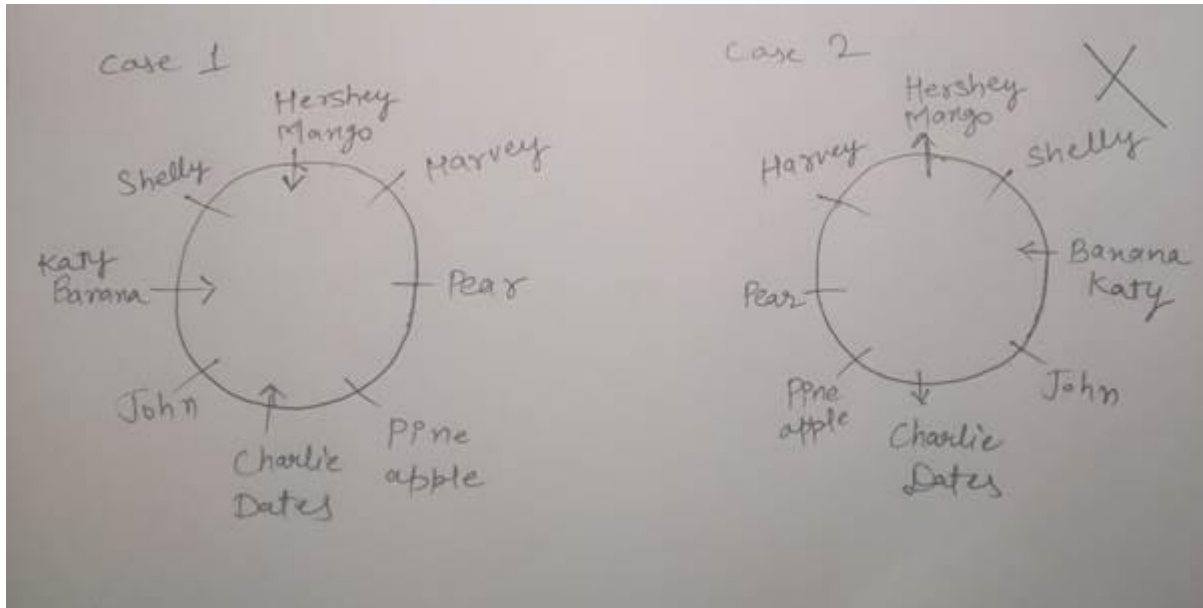

The one who hates banana is sitting opposite to the neighbour of who hates pineapple.

Step 3:

There are 3 people sitting between the one who likes pear and Katy, who is not an immediate neighbour of Harvey.

Shelly, who loves peach is sitting between Katy and Hershey, who are both facing inside.

Here case 2 got cancelled as both Katy and Hershey are facing inside.

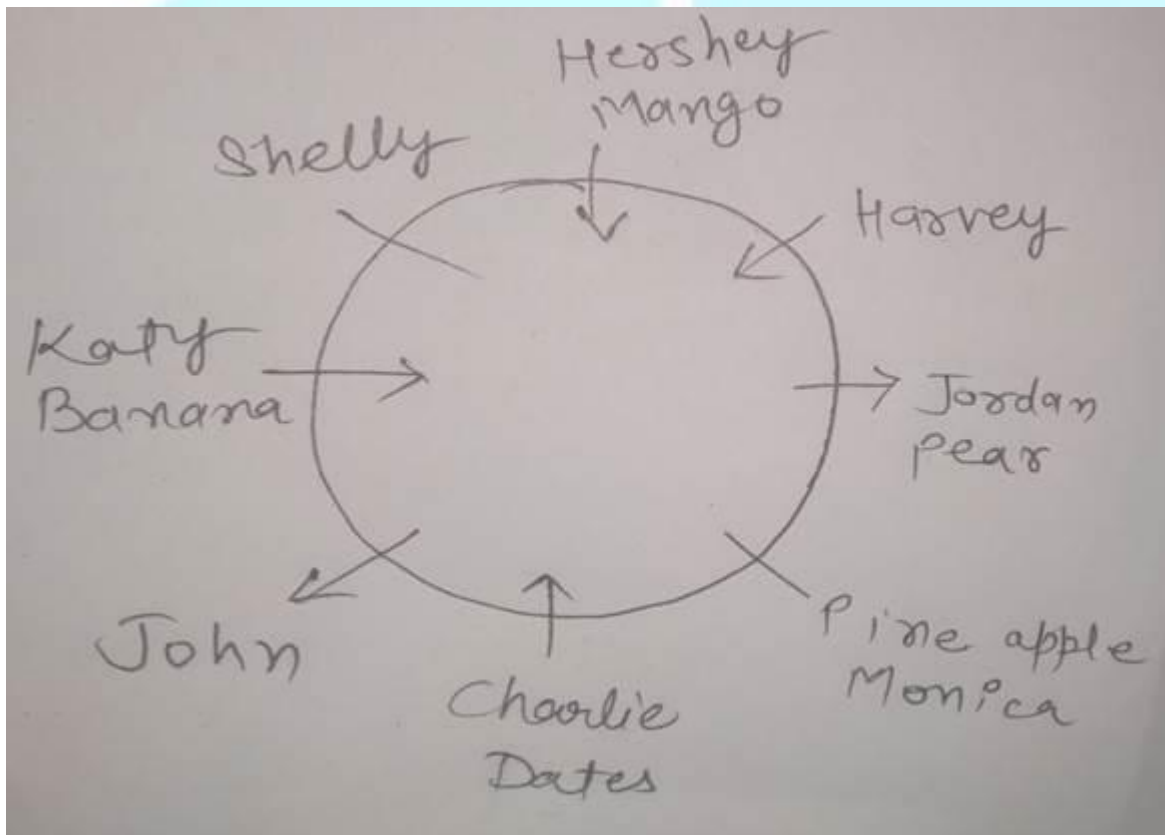

Step 4:

Harvey likes apple and peach.

Jordan is sitting 3rd to left of John.

Monica's immediate neighbours are facing opposite direction.

Harvey is facing inside.

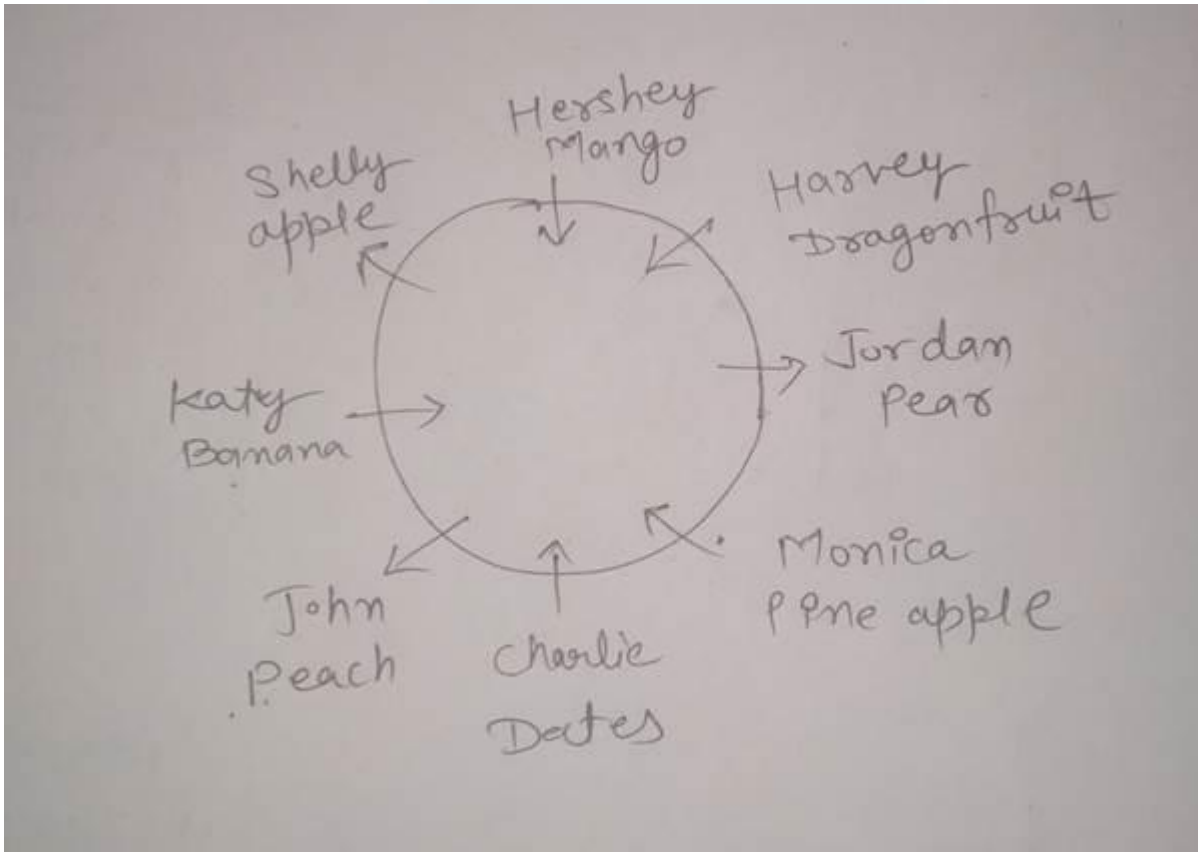

Step 5:

As it is given that Harvey likes apple and peach, which means he hates Dragon fruit.

Shelly likes peach, hence she hates apple

The only fruit left is peach, therefore John hates peach.

Now, the final seating arrangement will be:

1). B

Jordan is sitting to immediate left of Harvey.

2). B

Harvey – apple is the odd one out.

3). A

1 person is sitting between Katy and Charlie (when counted from left of Charlie).

4). D

Monica and John hate Pineapple and peach respectively.

5). A

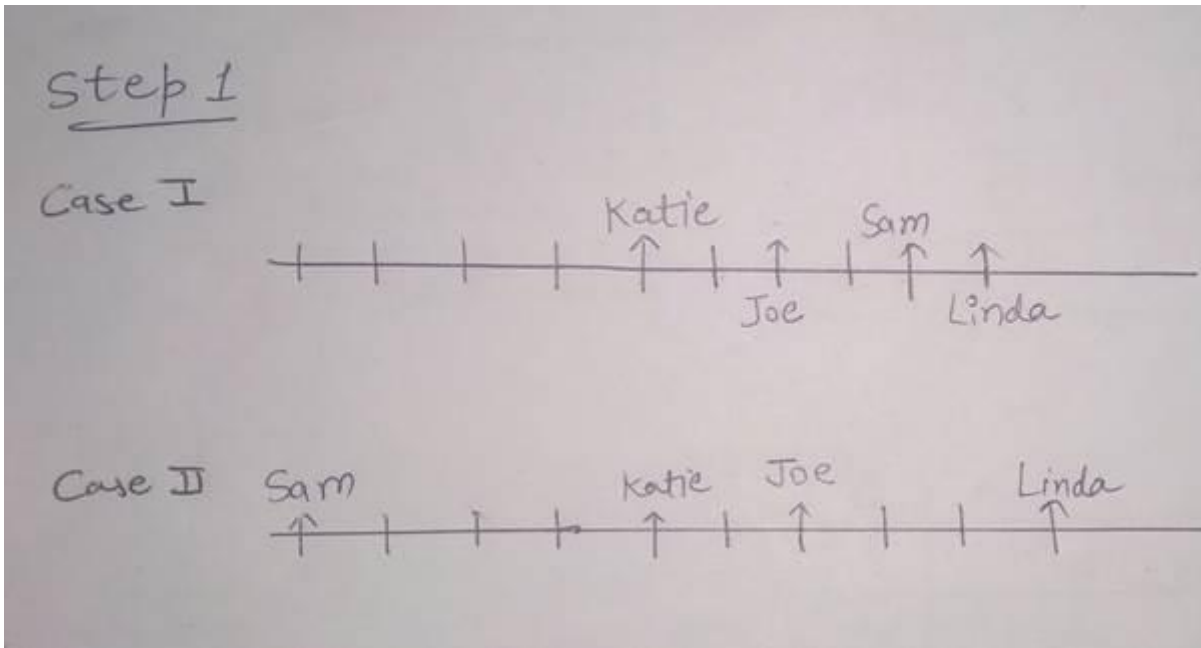

Harvey and Hershey are matched correctly as they are neighbours.

(6-10) Common Explanation

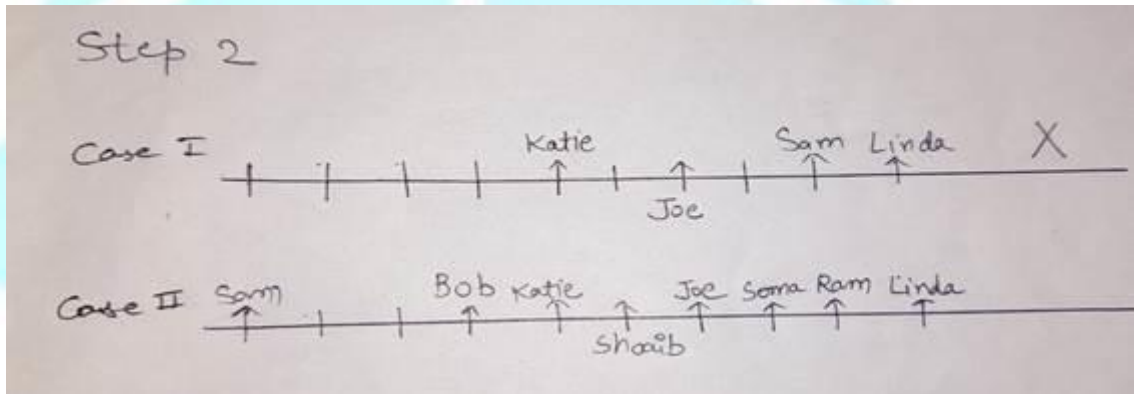

Katie is sitting 5th from the left end of the row.

There are three people sitting between Katie and Sam.

Two people are sitting between Joe and Linda, who is sitting fifth to the right of Katie.

Shoab is sitting immediately to the left of Joe.
 Ram and Joe are immediate neighbours of Soma.
 Bob is sitting third to right of Sam.

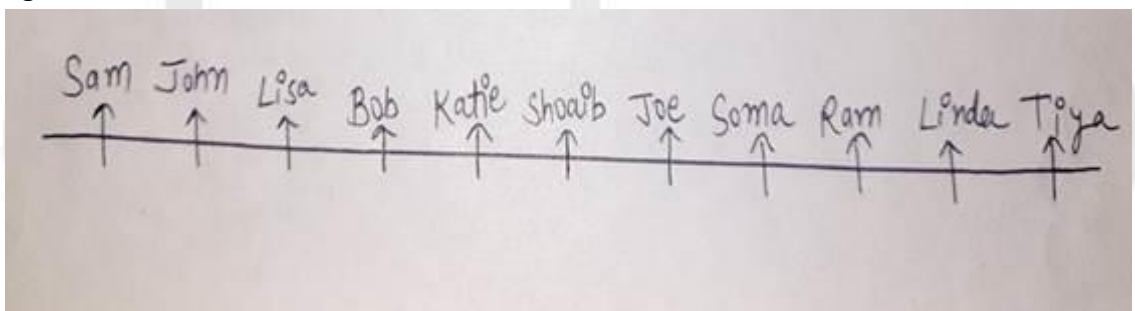

Here case1 got cancelled as it is given that Ram and Joe are immediate neighbours of Soma, which is not possible in case 1.

Step3:

Number of people sitting to the right of Soma is the same as the number of people sitting to the left of Bob.

Lisa is an immediate neighbour of John and Bob.

So the final arrangement will be:

6). A

Sam and Tiya are sitting on the extreme ends.

7). C

The position of Tiya with respect to Joe is fourth to the right.

8). E

Five people are sitting between Bob and Linda.

9). B

If the positions of Lisa and Ram are interchanged, then Lisa will be sitting to the immediate right of Soma.

10). D

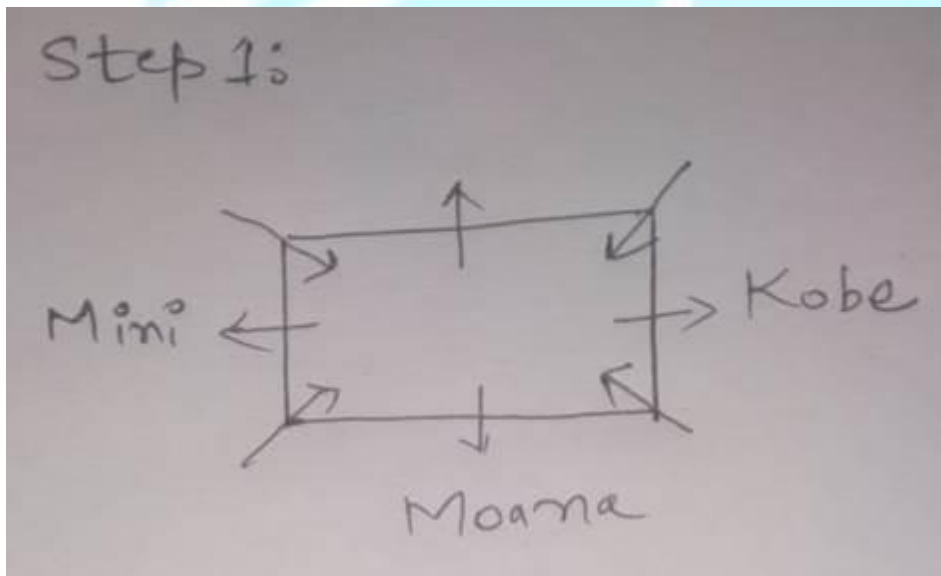

Bob is sitting immediate left to Katie unlike other cases where the second person is sitting immediate right to the other paired person. Therefore, option (d) will be the answer.

(11-15) Common Explanation

Mini and Kobe are sitting opposite to each other but do not face each other.

Kobe is sitting second to the left of Moana.

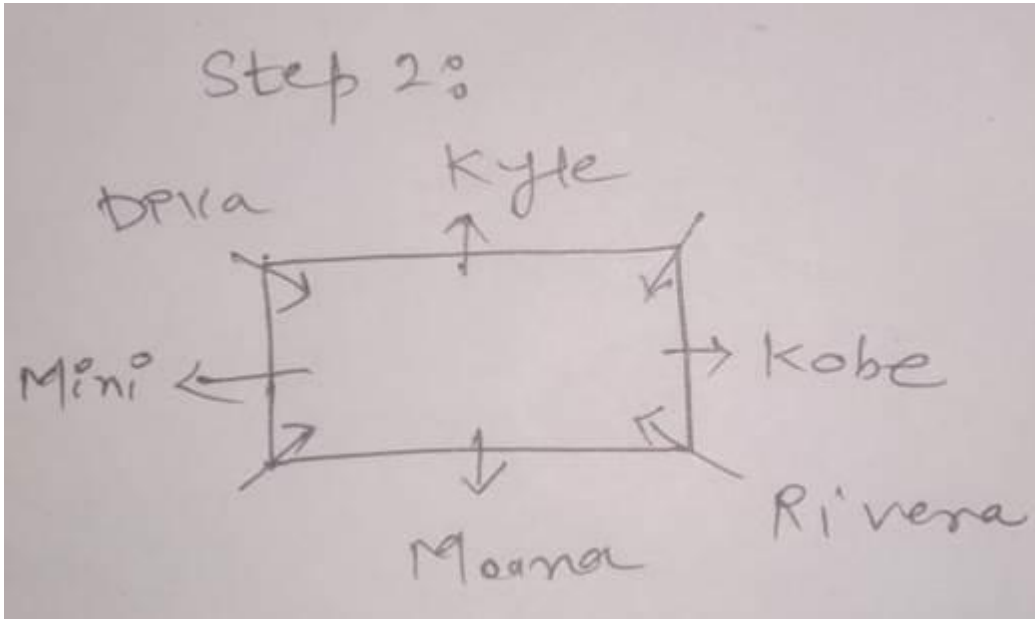

Moana is neither on the corners nor facing inside.

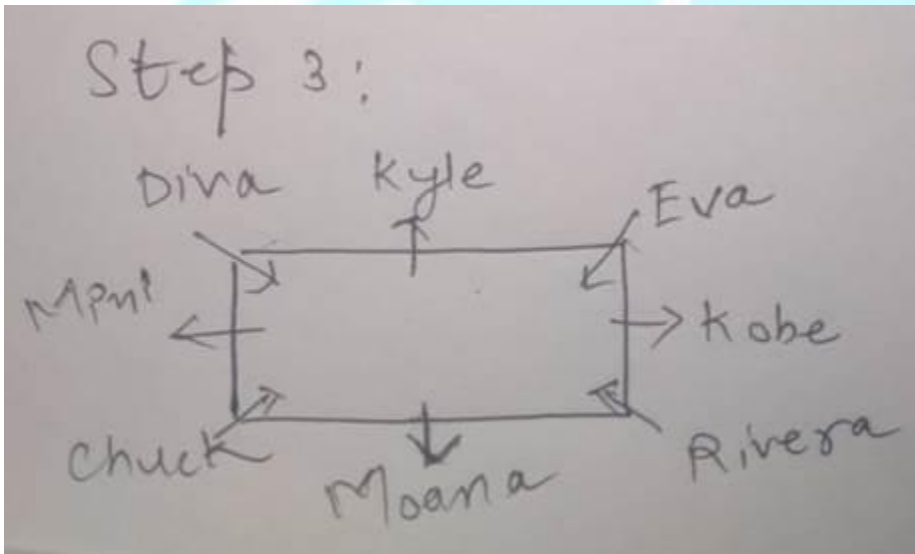

Rivera and diva are sitting opposite to each other.

Kyle is sitting to the immediate right of Eva.

Kyle is sitting third to the right of Rivera.

Step 3

11). D

Chuck is sitting second to the left of Rivera.

12). E

The position of Diva with respect to Kobe is Fifth to the right.

13). D

Moana is the odd one out from the given options.

14). D

The right statement about Kyle is 'Kyle is second to the left of Kobe'.

15). C

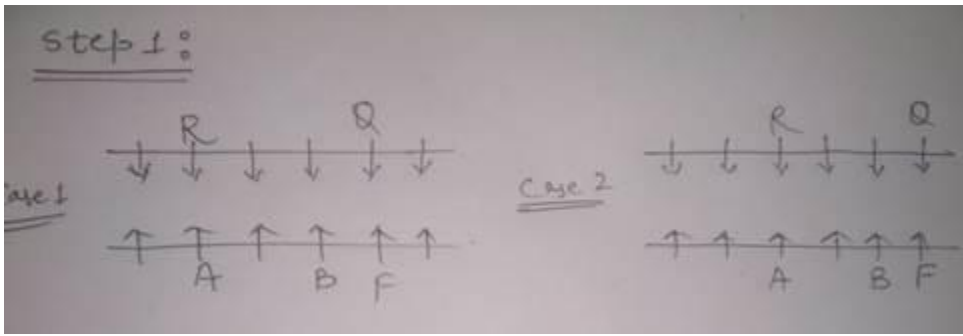

If everyone is facing inside, then Eva will be sitting third to the right of Moana.

(16-20) Common Explanation

R is sitting in front of A and is third to the right of Q.

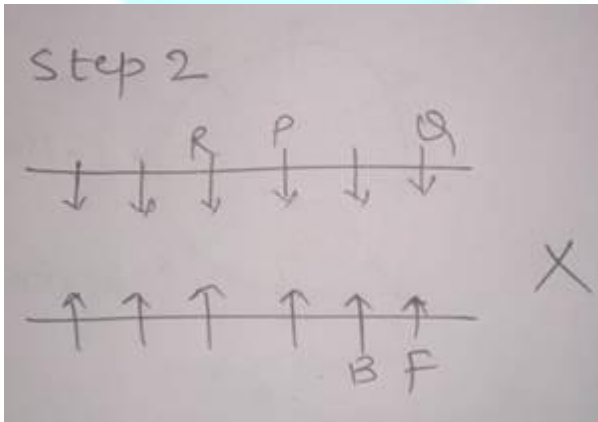

A is third to the left from F who is sitting immediately right to B.

Neither R nor A is sitting at the edge.

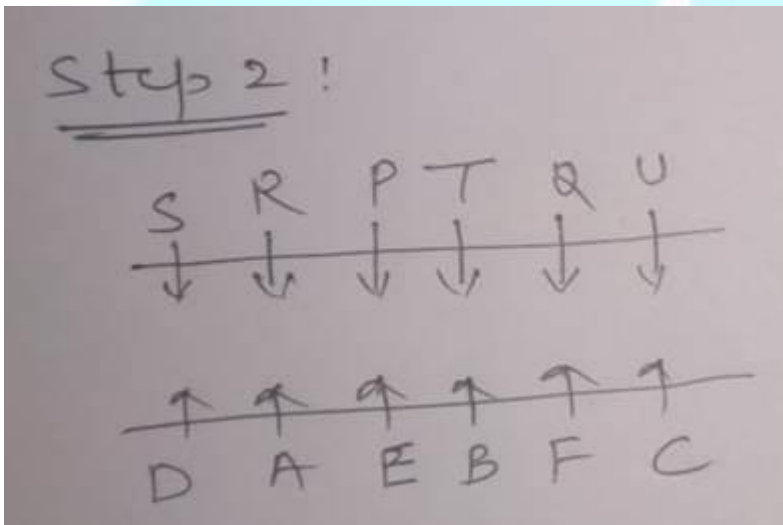

P is sitting next to R but not on the edge.

U and T are sitting next to the person in front of F.

E is sitting either left or right of B and faces P who is third to the right of U.

D is next to A Facing S.

16). A

T is sitting third to the left of S.

17). E

T & B are facing each other.

18). C

If T and Q exchange places, R is sitting in third to the right of T.

19). E

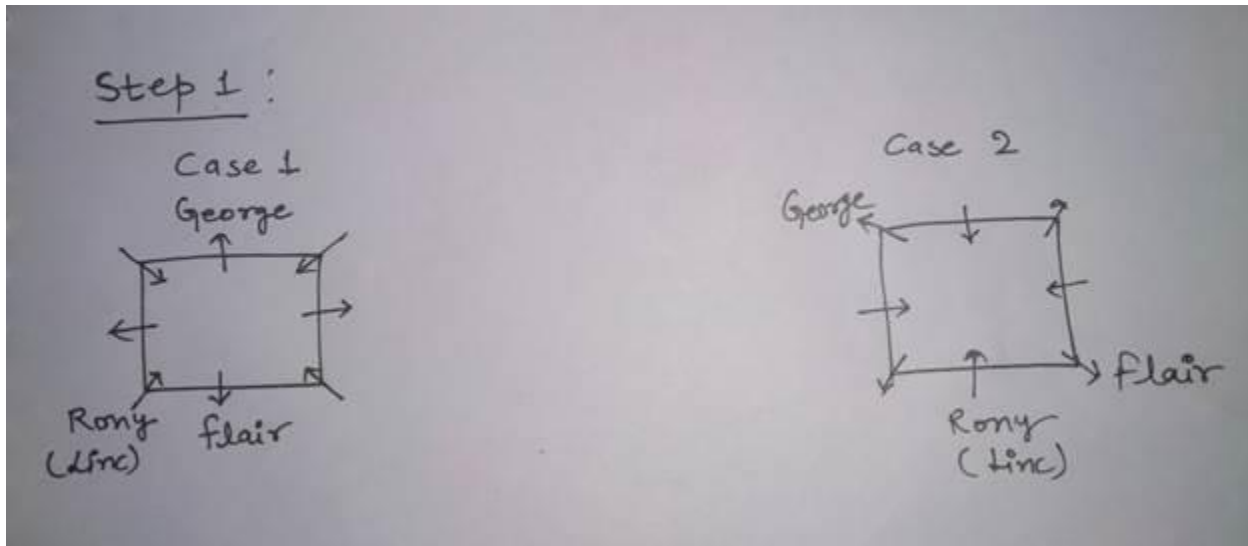

The position of T with respect to U is second to the right.

20). C

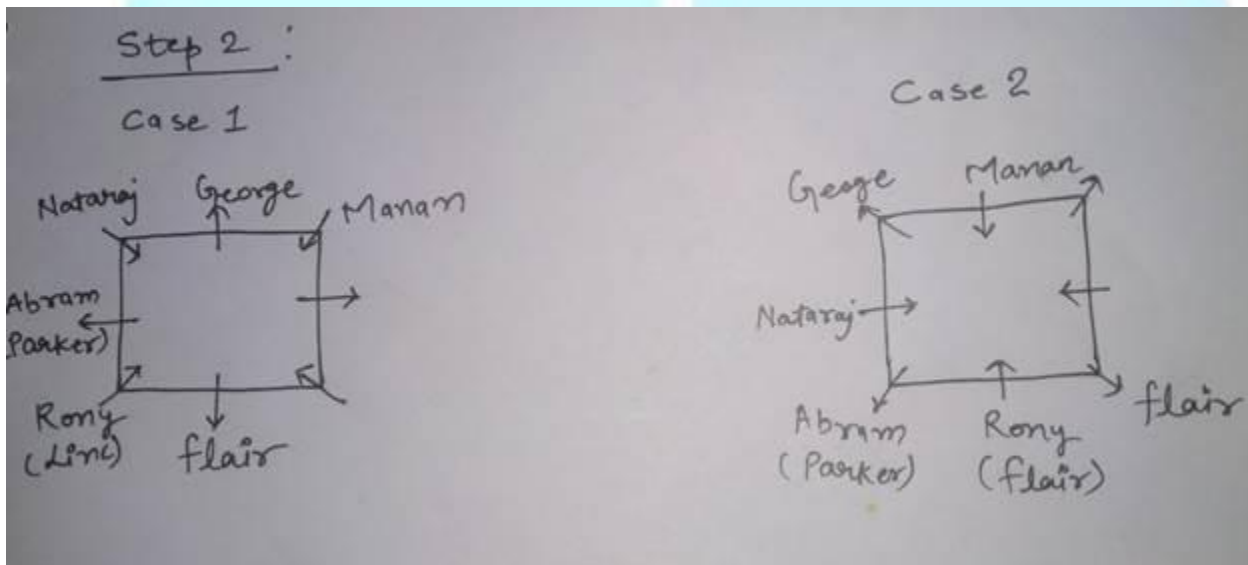

The odd one from the given options is A as rest are sitting at the edge.

(21-25) Common Explanation

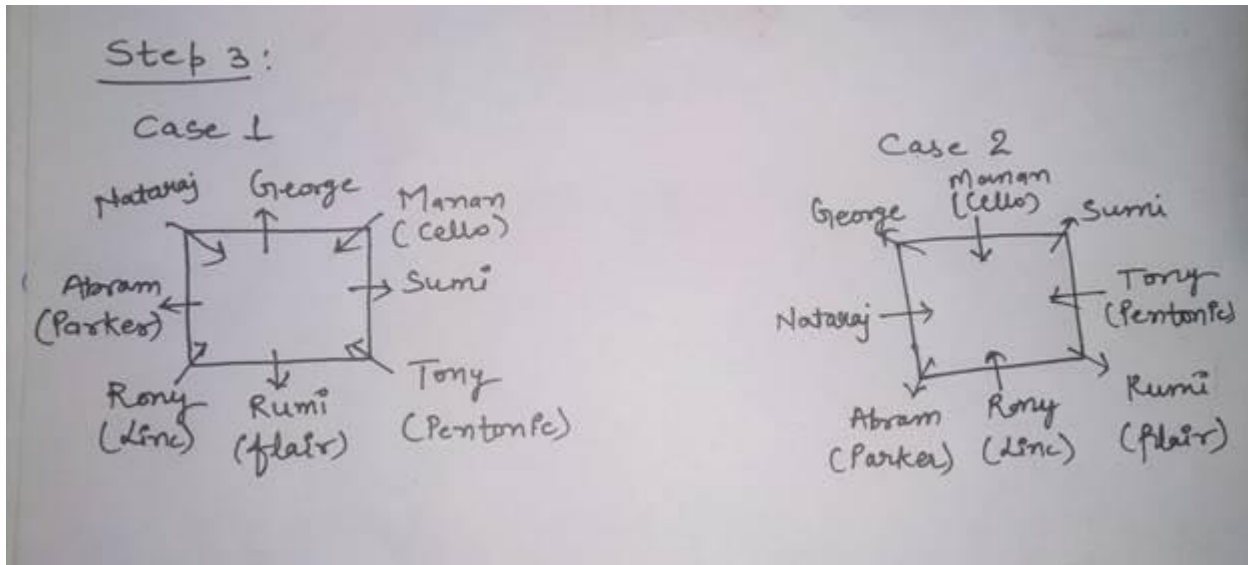

Rony, who likes Lincpen, is sitting to the immediate right of the one who likes flair, who is facing outside. George is sitting third to the left of the person who likes Lincpen.

The person who likes the Nataraja pen is sitting immediately to the left of George. Manan is sitting opposite to Rony and either likes cello or Pentonic pen. Abram, who uses Parker pen, is sitting opposite to the person who is immediately to the left of Manan.

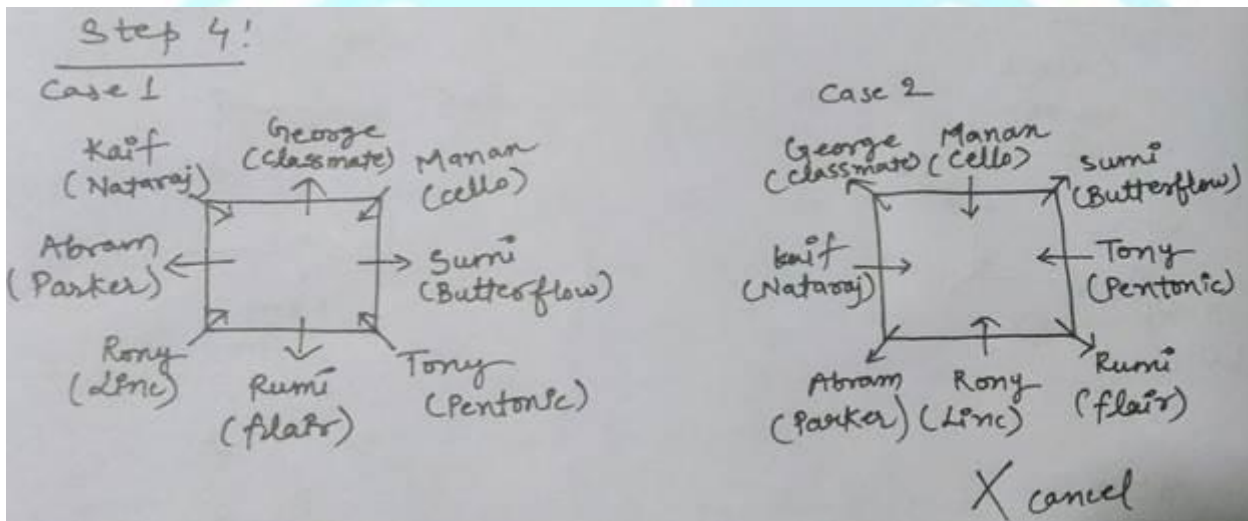

Tony sits third to the left of the person who likes Parker pen. Tony neither likes flair nor cello pen. Rumi is an immediate neighbor of persons who like Linc and Pentonic pens. Sumi is sitting immediately to the right of person who is sitting opposite to the one who likes Nataraja.

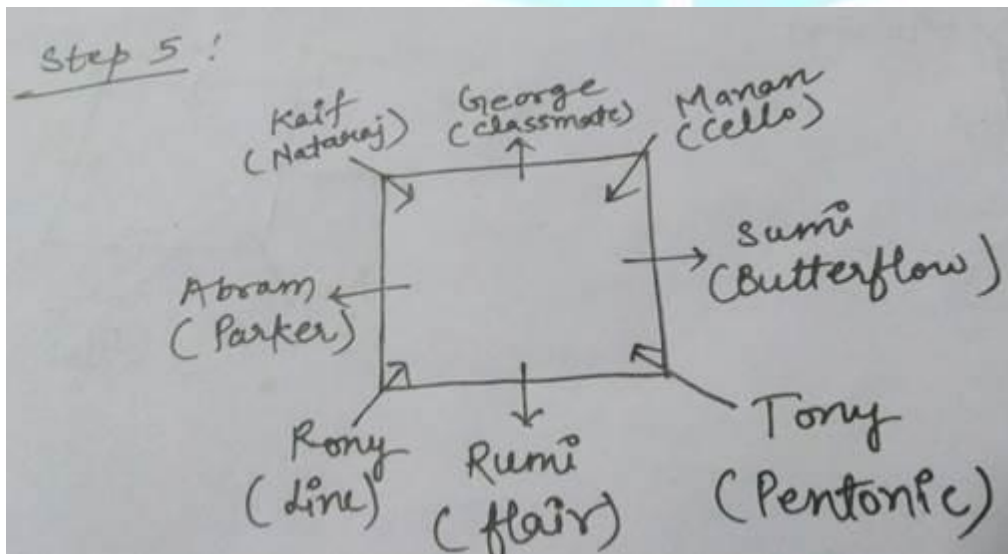

Kaif is sitting opposite to Tony.

Sumi neither uses a classmate's pen nor sits in the corners.

Final arrangement will be

21). A

Butterflow brand of pen is used by Sumi.

22). D

5 people are sitting between Tony and Manan (when counted from left of Tony).

23). D

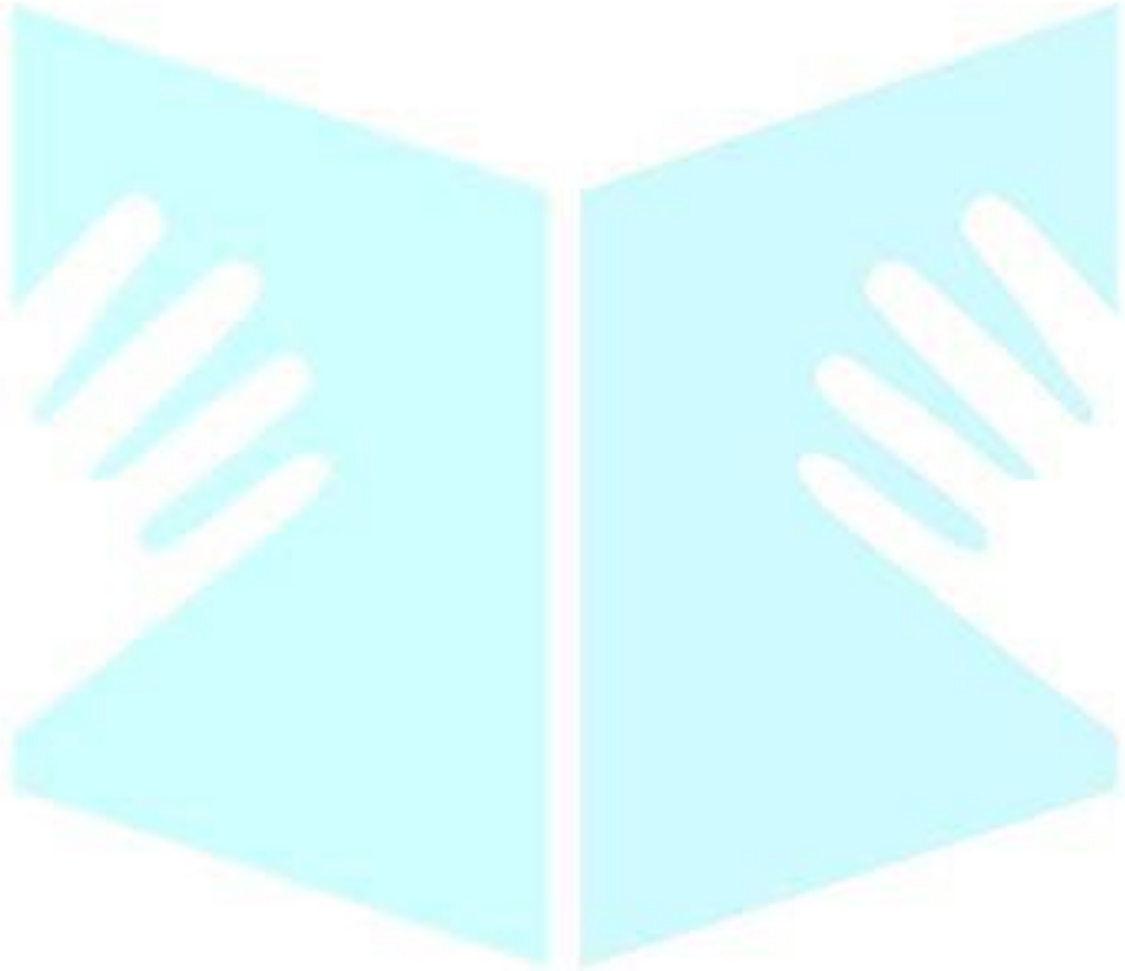

All George-Classmate, Kaif- Nataraja, Manan- cello and Sumi-Butterflow are correctly matched.

24). A

The position of Rony with respect to the person who likes classmate pen is third to the left.

25). C

Tony is the only one sitting at the corner.
